

AM COLLECTING SWEEPERS

**Excellent
outcome with
maximal
sweeping**

The AM collecting sweepers remove and collect sand, garbage, and other loose material with maximal efficiency and speed. Carefully planned, reliable technology and stylish design prove their value in practice. Environmental awareness as well as effective mineral dust and stone powder removal minimize the health risks of the road users.

ROAD INTELLIGENCE

Clean and impressive results

The AM collecting sweepers are very versatile. Depending on their size and model, you can use them with urban area maintenance equipment as well as tractors and wheel loaders. They are ideally suited for urban, residential, and industrial areas as well as harbours, parking lots, and recycling areas. The particle lamellas, placed on the back and the sides of the unit, efficiently prevent dust from flying around.

Adjustable main and side brushes ensure clean and highly efficient sweeping result. The main brush operation is floating and linear. This optimizes the distance between the main brush and the collector, thus ensuring effective collecting. The powerful sprinkler system is lead from the integrated water tank to the anti-corrosion frame. It binds the swept material and prevents dust from spreading all over.

Pictures may contain accessories.

Technical information	Yellow Cat	Green Cat	Blue Cat	Maxi Cat
Working width (w. side brush)	1,740 mm	1,850 mm	2,050 mm	3,050 mm*
Main brush width	1,100 mm	1,300 mm	1,500 mm	1,800 mm
Side brush diameter	650 mm	650 mm	650 mm	650 mm
Container capacity	200 l	500 l	700 l	950 l
Weight when empty	600 kg	750 kg	950 kg	1,350 kg
Required hydraulic flow	30 l/min	40 l/min	40–60 l/min	60 l/min
Watering system	100 l tank	180 l tank	210 l tank	210 l tank
Accessories	Left side brush (max. working width 2,240 mm)	Left side brush (max. working width 2,375 mm)	Left side brush (max. working width 2,575 mm)	Two side brushes included

* Theoretical working width with new brush lamellas
